3rd International Conference BIOTECHNOLOGY AND CANCER

ORAN, Algeria 07-08 DECEMBER 2019

The International Conference on Biotechnology and Cancer (ICBC) is the third international conference organized by the Higher School of Biological Sciences of Oran (ESSBO), December 07-08, 2019 in Oran, Algeria. It is a part of the "Biosciences" conference series initiated by ESSBO a few years ago. Ever since its foundation, "Biosciences" conference has attracted numerous Algerian and international researchers interested in biotechnology advances. This year, "Biosciences" conference will focus on another interesting and hotly debated issue that has raised endless questions over the last decade about Biotechnology and Cancer.

Topics

- ◆ Immunotechnology and cancer immunotherapy
- ◆ Pharmacogenomics
- ◆ Cancer epigenetics
- ◆ Novel approaches in cancer therapies
- ◆ Nanotechnology in cancer treatment
- ◆ Oncogenomics
- ◆ Cancer vaccines
- ◆ Cancer diagnostics technologies

IMPORTANT DATES

Abstract submission Deadline
01 September 2019

Notification of acceptance
01 October 2019

Confirmation of attendance
15 October 2019

Confirmed Speakers

Pr. Taha Merghoub, Attending Memorial Sloan Kettering Cancer Center, New York City, USA

Dr. Ahmad Chenna, Principal Scientist at Monogram Biosciences Inc., San Francisco, USA

Dr. Sami Djoulah, Chairman industrial task force 3, Génomique 2025 project, Paris, France

Pr. Dominique Charron, University of Paris 7, France.

Dr. Abdelmadjid Hihi, Head of programs, CEA-LETI, Cinatec, Grenoble, France

Dr. Mohamed Boudjelal, Chairman of Medical Core Facility and Research Platforms, Leader Of Drug Discovery Program, King Abdullah International Medical Research Center. KSA.

Dr. Jacques Robert, Oncology, University of Bordeaux, Bergonié Institute, France.
